

TOGETHER WE RISE

RISE SC ACCEPTED INTO THE GIRLS' DA U13 PILOT PROGRAM

Rise Soccer Club ("Rise SC") is proud to announce it's confirmation as the newest member of the United States Soccer Development Academy ("DA") for the birth year 2005 (U13) girls' pilot program in the Frontier Division, beginning with the Fall 2017 season.

The DA aims to develop elite players through increased training, fewer total games and more competitive matches. DA clubs and coaches are held to a high standard of professionalism and must provide development plans to U.S. Soccer. DA member coaches attend Training Centers, meet U.S. Soccer licensing guidelines and submit an Annual Training Curriculum aligned with United States Soccer Federation ("USSF") Player Development Initiatives. DA member clubs and teams are evaluated semi-annually on their performance and adherence to the Academy standards.

Rise SC's inclusion into the DA for U13 girls reflects the dedication and hard work of our coaches, board members and other volunteers to building a nationally recognized, full-service soccer club.

More information on the Girls Development Academy program can be found on the US Soccer Development Academy website at www.ussoccerda.com.

Rise SC will communicate more details regarding the U13 Girls' Development Academy pilot program, including a series of identification sessions and program information meetings. For more information regarding the DA and this unique U13 program, please contact Colin Chesters, Executive Director.
